About our dance teaching staff

Our dance instructors are always updating their training in dance and dance programs to bring the most recent styles of dance to our students. Our instructors not only teach choreography, they teach technique and terminology in every class. Dance classes are an amazing tool for teaching children basic life skills that can be used throughout the rest of their lives. So many different skills and rules are needed to be successful in this world, and kids are never too young to start learning them. Many children's activities teach or reinforce similar life skills, but the way dance classes do it is unparalleled. Combine a great instructor with music, movement, precision, athleticism, beauty, grace, fun, games, props and energy, and you've got a recipe for an amazing experience! Register for dance class at Vancil Performing Arts Center and you'll be surprised at how quickly these skills kick in gear!

We offer Private Music lessons in Guitar, Drums, Percussion, Piano, Voice, Brass, Woodwinds, Strings, Music Theory and Group classes in Preschool Music and Triple Threat

Reasons to choose our music program

Focus on Teaching

All we do is teach. We do not sell or rent Instruments of music. This leaves us free to specialize in one thing: providing the highest quality of music instruction.

University Trained Teachers

Our instructors are highly qualified and all have extensive performance experience. Most importantly, our instructors strive to conform their teaching to each individual student's learning style.

Private Lesson

Private lessons ensure that the student has the undivided attention of the teacher and can progress at a level suited to them individually.

Preschool Music Program

From the age of 3, children are exposed to the basics of music in a fun, supportive, group environment. This program builds a solid foundation for later success in private lessons.

Triple Threat Program

Do you like to act on stage, write a script, perform in a musical, or practice musical and dramatic concepts through singing, acting and dancing? This class is for you!!! Third grade through adult regardless of experience or disabilities.

About our music teaching staff

All of our music instructors on staff have their university degrees in music. They can easily adapt to any student's needs (child or adult) to learn music. Students can accomplish their goals with our trained instructors, where it's just learning to play songs, read music, learn music theory or to strive to get the first chair in their school music program.
